EXPERIENCE

DeMoulas Super Markets| Stratham NH — Clerk

April 2016 - PRESENT

I worked in both the Produce and Dairy departments at several locations. I would assist any and all customers in and around the store. I was responsible for keeping the sales floor and backrooms clean and organized. I trained several new employees up to full time status. Used forklift and powerjack in a safe and efficient manner in order to increase workflow.

Institute For Mastering Success| San Diego CA — Head of IT

May 2014 - September 2014

I was their chief video and audio editor, having to work with tight deadlines to get content posted on social media and sent to clients.

I also managed their CRM (infusionsoft), setting up new user profiles and managing the overall flow of their automated outreach programs.

Atlantis Marine Gear Supply| Topsfield MA — Janitor

July 2009 - November 2011

Basic janitorial activities such as cleaning and organizing the workplace.

EDUCATION

UNH| Portsmouth NH — Full Stack Developer Certificate

March 2019 - Sept 2019

UNH's Coding Bootcamp: I learned a variety of skills applicable to full stack development from basic HTML to MySQL, react, and everything in between.

Champlain College| Burlington VT — Business Management

August 2012 - May 2016

With a focus in creative media and more specifically video game production, I learned just about everything one needs to know about growing and cultivating a successful business.

Masconomet High School| Boxford MA — Graduate

September 2008 - June 2012

I kept a focus on electives focusing on technology. I learned about video production, graphic design and imaging, programming, web development, and even robotics.

SKILLS

Full Stack Development =
[HTML, CSS, javascript,
mysql, mongoDB, node.js,
react]
].

Video Editing = [iMovie,
Wirecast, Premiere, OBS]

Image Editing = [Photoshop,
Fireworks, Illustrator,
3DSMax, Zbrush]

Programming Languages = [
Java, Visual Basic, RobotC,
C++]

Leadership

Masconomet Robotics Team
(2008-2012) Co-Founded an
afterschool team to compete in
the FTC. Helped induct new
members and mentored them
to build and program robots.

*Masconomet Institute for Micro
Lending* (2011 - 2012)
Co-Founded a charitable
organization to raise money
for small manageable loans for
people across the world to start
their businesses with a focus
on third world nations.

First Lego League (2006 - 2012)
Helped run my local FLL
competitions, advised several
teams on how to tackle any
obstacle and have fun doing it,
also refereed the yearly
competitions.

PROJECTS

Personal Portfolio — captainefff.github.io

My personal portfolio created alongside my time at the UNH Coding Bootcamp. A constantly growing collection of the apps and projects I have worked on both in and outside of my studies.

Piquant Places — captainefff.github.io/project_1

A web app using google's apis to retrieve restaurant data and display a heatmap that represents the "Hottest" places to eat.

Game Library — secret-taiga-28497.herokuapp.com

A virtual game library that one can currate themselves. Allows for user entry or barcode scanning of physical games to populate your own game shelf. Still a work in progress with plans to have multiple users, a more polished ui and possibly even more uses than just video games.
